

# MyChart

Your digital connection to care

## What is it used for?

- MyChart is Epic's online portal for patients.
- Epic continues to invest and expand what MChart can do, moving it from a record-keeping tool to a full patient engagement platform.

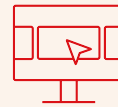

## How we can help

### Activation campaigns

Targeted campaigns to increase MyChart adoption and engagement across your patient base.

### Digital access points

Strategic placement of MyChart access across your digital ecosystem to drive awareness and usage.
