

Provider Finder

The right provider. The right location.
Right when your patients need it.

Epic's Provider Finder is a new tool within the EHR that enables provider search, results, and detail pages, without the need for a third-party or custom-built solution.

Better experiences

Help patients easily find the right provider and location.

Higher conversions

Strategic placement of CTAs and optimized journeys drive more action.

Stronger engagement

Connected patients to care faster and keep them coming back.

Improved ROI

Smarter targeting and better experiences lead to measurable impact.

How we can help

Implementation support for marketing teams on website integrations

- **Header and footer support**
- **URL strategy**
- **Website strategy** for key CTA placement on non-Epic-hosted pages to support conversions
